DETAILED ACTION

1. Claims 1 and 3-5 are allowed. Claims 6-15 have been canceled in applicant's amendment filed 13 April 2007. Claim 2 has been canceled in Applicant's amendment dated 07 March 2006.

Response to Amendment

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Response to Arguments

3. Applicant's arguments, see pages 4 and 5, filed 13 April 2007, with respect to claim 1 have been fully considered and are persuasive. The rejection of 16 March 2007 has been withdrawn.

Allowable Subject Matter

4. Claims 1 and 3-5 are allowed.
5. The following is an examiner's statement of reasons for allowance: the prior art of record, either alone or in combination, fails to teach or fairly suggest the combination of limitations found in claim 1, specifically the location and orientation of the operating projection and the depth altering portion for the first detection hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Relevant Prior Art

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
 - a. Yamashita (US Patents 6,396,800 and 6,424,617) discloses a slider having a portion altering the depth of a first detection hole but fails to disclose where the second detection hole can be closed and where the slider has an operating projection.
